

Website: <http://www.augustana.edu/tristate/index.html>

Student Research Fair: Students are encouraged to submit abstracts describing the outcomes of experimental research on all topics within the field of Psychology. Posters must be authored by current or recent undergraduates and sponsored by a faculty member.

Student Information Sessions: You'll soon be graduating with a bachelor's degree in Psychology. So what's next? Do you have questions about graduate school and the admissions process? What if you don't intend to enter graduate school, at least not right away? What career opportunities are available to you? To help answer these questions and others we will host two student information sessions, and graduate school representatives will be on hand to describe their programs and answer your questions.

Keynote: Dr. John Skowronski will give a keynote entitled "*There and Back Again: Journeys on the Road of Psychological Science.*" Dr. Skowronski, a 1977 graduate of Augustana College, is a social psychologist currently at Northern Illinois University.

Registration Information: Students who plan to attend the conference should register on or before October 23rd. Those students who intend to make a presentation should submit their abstracts by the same date. Registration and abstract submission will be handled through the conference website. The \$7.00 registration fee can be paid in advance by mail or in person on the morning of the conference.

We hope to see you on October 31st at Augustana College!

Tri-State Undergraduate Psychology Conference 2009
