

CAREER OUTCOMES for the Augustana College

Class of 2024

Each year, Augustana's Office of Career Development and Vocation reports on the success of the most recent graduating class in launching careers, entering graduate/professional school, or taking time to continue research or learning experiences that will strengthen applications and clarify goals. These are the "positive outcomes" in the First Destinations Report.

At Augustana, we are glad to share results of the First Destinations Report for the Class of 2024, with a positive outcome rate of **99.51%** and a knowledge (response) rate of **84.58%**.

POSITIVE OUTCOMES*

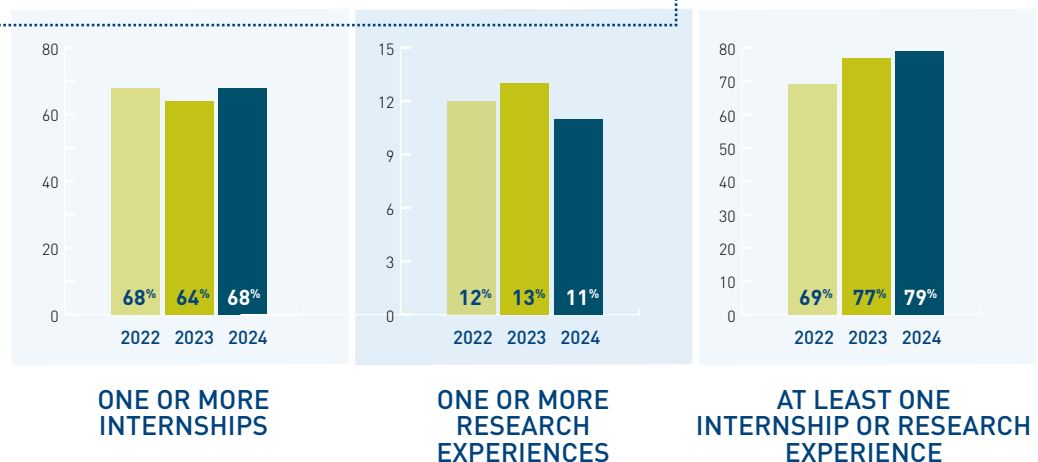

*Not including military, volunteering and still looking, all below 0.1% at Augustana College

** Reflects a national trend; Augustana graduates are well prepared for the hands-on experiences that many pursue during a gap year.

INTERNSHIPS & RESEARCH EXPERIENCE

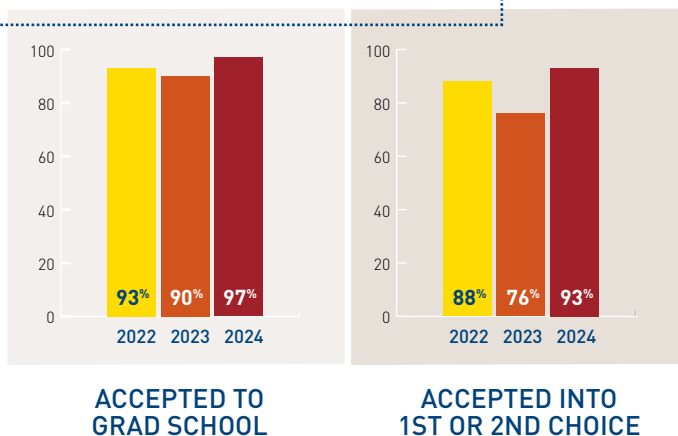

One example of our investment in student success is **Augie Choice**, which grants every student up to \$2,000 to support an internship, study abroad or a research/creative project. Even throughout the years most affected by the pandemic, engagement in research and internships has remained high at Augustana.

GRADUATE SCHOOL APPLICANTS***

More proof of Augustana graduates' high level of achievement and ability is the rate to which they are accepted into one of their top two choices of graduate schools.

*** At time of survey

Augustana's most recent First Destinations Report shows how Augustana's commitment to career preparation, rooted in engaged learning, translates into real-world success.

Standout employers and graduate programs for members of the Class of 2024 include the Big Four accounting firms, tech giant Amazon, top schools for optometry and epidemiology, and one of the most prestigious music conservatories in the U.S.
